## High School Coursework

On the following page you will provide information for the six subject areas that are part of the 16 high school core competency coursework requirements: English, Math, Lab Science, Social Science, Second Language, and Fine Arts or Career & Technical Education (CTE). For more details on the 16 high school competency requirements refer to <http://admissions.arizona.edu/how-to-apply/abor-course-competencies>.

Indicate the coursework you have completed and grades you have received. Also list the courses you plan to complete during your senior year of high school. Include any college credit(s) you have completed or will complete by the time you graduate from high school. It is highly recommended that you have your transcript available when you complete this section of the application.

- ▶ You are required to indicate at least which courses you have in progress for any of these subject areas.
- ▶ If you provide us with each of the 16 high school core competency coursework requirements in this section, your admission decision will be based upon this information. You will not need to submit a transcript until after your graduation from high school. If your final high school transcript indicates that you do not meet the minimum standard for admission to the University of Arizona, your admission may be rescinded.
- ▶ If you only provide your senior year coursework or do not provide complete information in this section, you will need to send us an official transcript.
- ▶ If you are awarded a UA merit scholarship or are admitted into the UA Honors College you will need to provide your 7th semester official transcript.
- ▶ If you fill out this section completely you will receive a faster admissions decision, and the self-reported grades you provide will replace official high school transcripts during the initial admission review process.
